About eVISO

eVISO is an artificial intelligence platform that creates value in the physical commodities market with real delivery. The Saluzzo (CN) based company is scaling its platform from the energy sector to other segments, channels and commodities. In the energy segment, eVISO supplies electricity throughout Italy, both through the direct channel and by providing services and products to other players in the electricity market. In the direct channel, eVISO specialises in serving Small and Medium Enterprises (SMEs), farms, shops and restaurants in Low Voltage and Medium Voltage. In the indirect channel, eVISO provides services and technology to more than 90 competitors with tens of thousands of users under management. Electricity supply coverage is active in all regions of Italy. Within the commodity purchasing and selling activities, the A.I. services are added. With this in mind, eVISO has developed in-house and made available to all operators in the sector an artificial intelligence engine capable of explaining and quantifying nested operating costs and supporting corporate management control: Nestore®.
