(simbolo: EVISO) – COMMOD-TECH company, listed on the EGM, with a proprietary artificial intelligence infrastructure that operates in the raw materials sector (electricity, gas, apples) – announces that it has signed, today, a contract with an industrial customer for the supply of electricity, for an annual ceiling of 54 GWh with 368 PODs, equivalent to an estimated turnover of approximately €13 million.

The two-year agreement is part of the contract signed at the end of 2023 with the [Consorzio Imperia Energia](#), which had stipulated the agreement on behalf of the 34 associated industrial companies. This new agreement for an additional 54 GWh of energy on an annual basis further **strengthens eVISO's position in the market of direct customers in the industrial sector**. Gianfranco Sorasio, CEO of eVISO, commented: *"The agreement is the result of months of work and preparation of a structured offer based on the provision of sophisticated electricity supply services, pioneers on the industrial market, which have convinced the technicians and engineers of the counterpart. Thanks to this specific offer, designed for large-scale industrial customers with consumption distributed over hundreds of points, eVISO increases its attractiveness on a significant segment of the market".*

Fabio Piletto, Area Manager Liguria of eVISO, added: *"Becoming a supplier of the Imperia Energia Consortium at the end of 2023 was an important milestone for eVISO. Today's agreement, the largest contract signed by eVISO in the direct sales market, confirms how successful our business model is. The success of this agreement is the result of the constant and collective commitment of the company's many collaborators in designing a distinctive value proposition for the industrial market of Liguria and the province of Imperia, with which I have a very strong emotional bond".*
