

Press Release

**EVISO: SECOND GAS SUPPLY CONTRACT SIGNED WITH A RESELLER OPERATOR FOR AN ANNUAL PLAFOND OF 5 MILLION SMC, EQUIVALENT TO AN ESTIMATED TURNOVER OF €4 MILLION**

**THE FIRST SUPPLY POINTS WILL BE SERVED STARTING IN DECEMBER 2024**

**Saluzzo (CN), 9 October 2024 – eVISO S.p.A. (simbolo: EVISO) – COMMOD-TECH company, listed on the EGM, with a proprietary artificial intelligence infrastructure that operates in the raw materials sector (electricity, gas, apples) – announces that it has signed the second contract with a reseller operator for the supply of gas.**

The contract signed today provides for an **annual plafond of 5 million standards per cubic meter (smc)**, with an **estimated turnover of approximately €4.1 million<sup>1</sup>**. **The first supply points will be served starting from December 2024**, in view of the current heating season.

Furthermore, the agreement signed with another reseller on [25 September 2023](#) was recently renewed for an annual plafond of 1 million smc, which are added to the contract communicated today for an accumulated total of 6 million smc and an estimated turnover of approximately € 5 million.

To provide a term of comparison, it should be noted that during FY 23-24 eVISO supplied 4.6 million smc, entirely destined to direct customers. Therefore, the contract signed today, together with that of last year, establishes an annual pipeline greater than the total gas supplied in the entire financial year ended in June 2024.

The agreement will allow to expand the volumes of gas managed and to benefit from the relationships with resellers in the energy channel also for gas, thus exploiting the advantages of eVISO's proprietary technology, which offers highly scalable management of raw materials.

**Lucia Fracassi, General Manager of eVISO, commented:** *“We are pleased to announce the signing of our second contract with a reseller operator for the supply of gas, which brings the annual pipeline to a total of 6 million smc. For this new agreement, we are happy to announce that the first supply points will be active as early as December 2024. The commercial activity towards the Reseller channel proceeds at a rapid pace, also following the IV national meeting of resellers operators organized by eVISO on October 1, 2024 in our new headquarters”.*

**About eVISO**

eVISO is a COMMOD-TECH that has developed an artificial intelligence platform that creates value in the raw materials market, currently 3: power, gas and fresh apples. In the power segment, eVISO provides power-tech services (technology and electricity) in Italy along the entire value chain: through the direct channel (B2B and B2C), to other operators in the electricity market (B2B2C) and also upstream to producers of renewable energy throughout the Italian territory. In the direct channel, eVISO serves approximately 20,000 users: small and medium enterprises (SMEs), farms, shops and restaurants in Low Voltage and Medium Voltage. In the indirect channel (B2B2C), eVISO serves over 100 competitors and almost 400,000 users throughout Italy.
