

## Press Release

### **EVISO SIGNS A CONTRACT FOR 1.8 MILLION CUBIC METERS OF GAS WITH AN INDUSTRIAL USER, CONFIRMING ITS VALUE PROPOSITION FOR THE GAS-INTENSIVE CONSUMERS MARKET**

**Saluzzo (CN), 6 June 2025 – eVISO S.p.A. (symbol: EVISO) –** *COMMODO-TECH company, listed on the EGM, with a proprietary artificial intelligence infrastructure that operates in the raw materials sector (electricity, gas, apples) – announces that it has signed a gas supply contract with a leading industrial company for an amount of over 1.8 million cubic meters per year equivalent to an annual turnover of approximately € 1.7 million<sup>1</sup>.*

This contract, valid for the 2025/2026 thermal year and effective from 1 October 2025, is the result of an intense work to optimise the international gas supply chain and confirms eVISO's ability to offer to gas-intensive customers a high added value offer, linked to the proprietary technological platform developed by eVISO, the latest developments of which have been the launch of the CORTEX Gas portal in March 2025.

In the 9 months from July 2024 to March 2025, eVISO supplied approximately 8.5 million cubic meters of gas, an increase of 136% compared to the same nine months of the previous year. The total gas supplied in the 12 months of 2023/2024 financial year reached 4.6 million smc (standard cubic meter). The contract signed today is therefore significant both in terms of volume (1.8 million smc) and because it adds to other contracts with gas-intensive users, a different segment compared to the domestic and SMEs segments served in the past.

**Lucia Fracassi, General Manager of eVISO, commented:** *"The numbers of gas supply volumes indicate an acceleration compared to the historical growth trend. With the contract signed today, eVISO has confirmed its distinctive and competitive value proposition in the gas-tech segment towards gas-intensive industrial customers, a segment from which we expect important satisfactions".*

**Lorenzo Cagna, Head of Large Direct Clients at eVISO, commented:** *"The closing of this important agreement with a high-consumption customer confirms the validity of the commercial strategy and the effectiveness of the proprietary technology developed by eVISO. The proprietary platform allows us to offer tailor-made, competitive and scalable solutions, essential elements to promptly respond to the needs of large gas consumers. It is exactly this technological capacity that distinguishes eVISO in the market and makes it a reference partner for high-energy-intensive industrial clusters".*

---

<sup>1</sup> Estimated potential turnover value calculated on the basis of the average gas price recorded in the months July 2024-March 2025 equal to € 0.96 smc (company data).

**About eVISO**

*eVISO is a COMMOD-TECH that has developed an artificial intelligence platform that creates value in the raw materials market, currently 3: power, gas and fresh apples. In the power segment, eVISO provides power-tech services (technology and electricity) in Italy along the entire value chain: through the direct channel (B2B and B2C), to other operators in the electricity market (B2B2C) and also upstream to producers of renewable energy throughout the Italian territory. In the direct channel, eVISO serves approximately 20,000 users: small and medium enterprises (SMEs), farms, shops and restaurants in Low Voltage and Medium Voltage. In the indirect channel (B2B2C), eVISO serves over 100 competitors and almost 400,000 users throughout Italy. For info: <https://www.eviso.ai/>*
