What eVISO does

eVISO is an Artificial Intelligence platform that creates value in the physical commodities markets

A lean way of saving through Artificial Intelligence

Computing of Big Data to deliver accurate forecasting and high frequency execution, leading to immediate savings into the Energy market

Single client approaching

Direct interaction with each client (B2B and B2C) to **understand** its needs

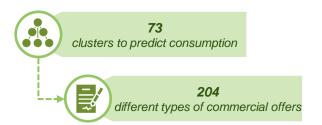

Data access

Gathering of **Big Data** from single client's meter to **monitor** its consumption behavior

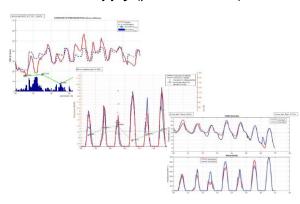

Grouping

Grouping of each customer into the best-fitting cluster

Forecasting

Algorithmic forecasting of both demand and supply (price & volume)

Execution

High frequency procurement & billing

Immediate saving

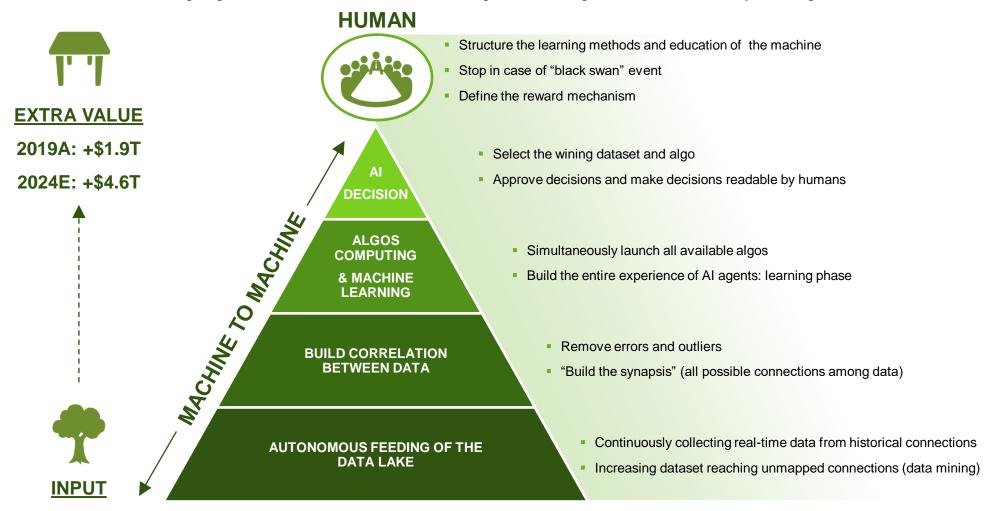

Considerable and repeated savings on the customer's bill

The Mind behind the Machine to create extra value

From the collection of billions of data, the platform builds synapses forming all possible connections between data. Al selects the winning algorithms with the best forecasting and strategies for the electricity trading

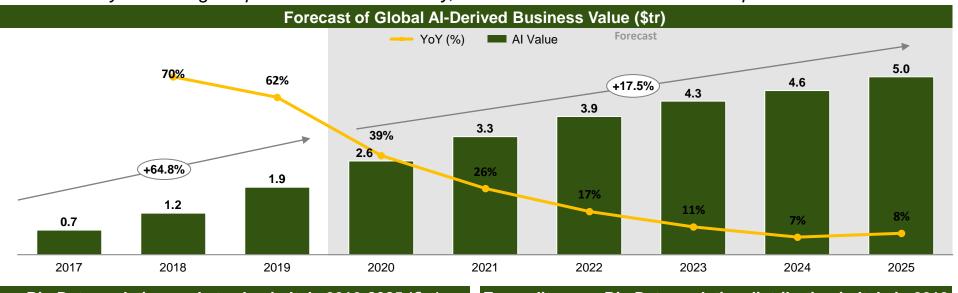

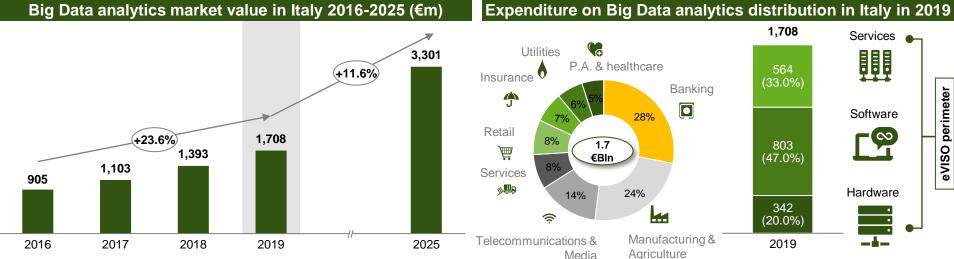

No other player active in the physical commodities' market is so far using a similar approach

Global Al-derived business value & Italian market value of Big Data analytics

Global business value derived from artificial intelligence economy (AI Economy) is projected to total \$5.0 trillion in 2025. Steadily increasing the period 2016-2019 in Italy, with a 11.6% 2019-2025 CAGR expected

Forecasting is the real competitive advantage

360° forecasting leveraging on a vast set of variables, delivering high accuracy in forecasting both the quantity demanded and the market dynamics

Combined use of 47 variables

INPUT

5x forecasting cycles per day

PROCESS

Prepare Date Lake

Clean & resample data

Synchronize

"Build the synapsis"

2 Compute

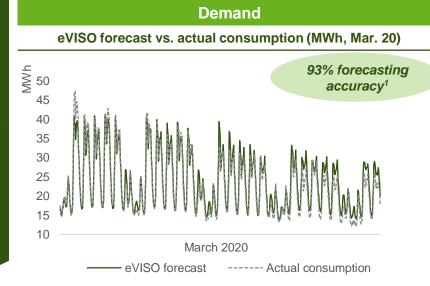

Upload data

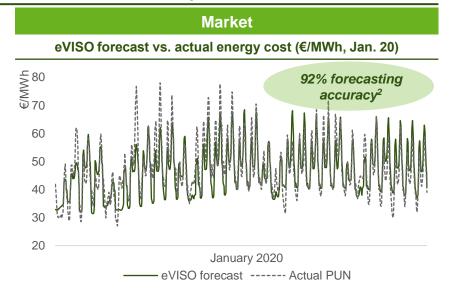

Run the algorithms

Approve forecasts

MEGA FACTORY: Over 635,000 forecasts each day

OUTPUT

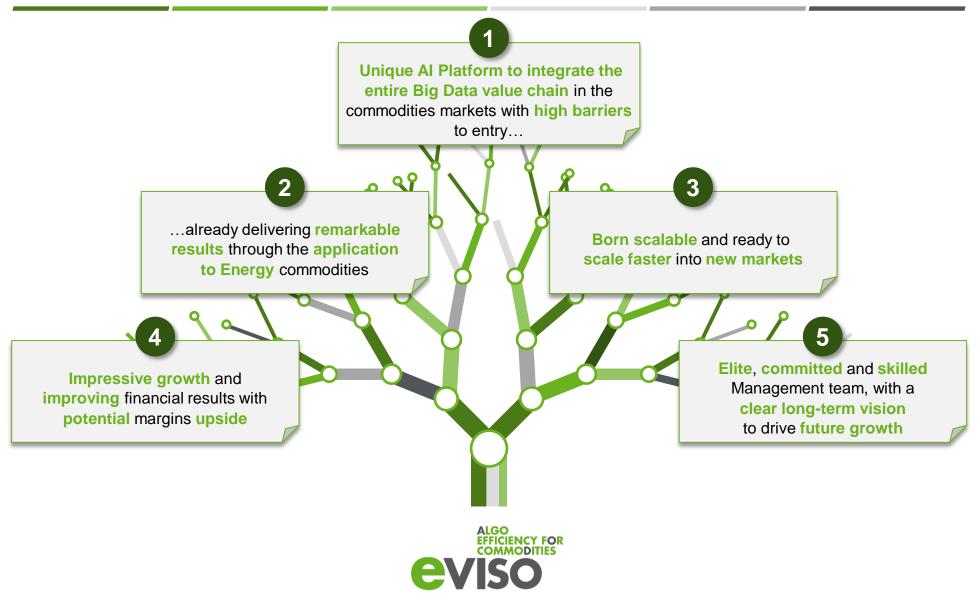

Key pillars of eVISO's Equity Story

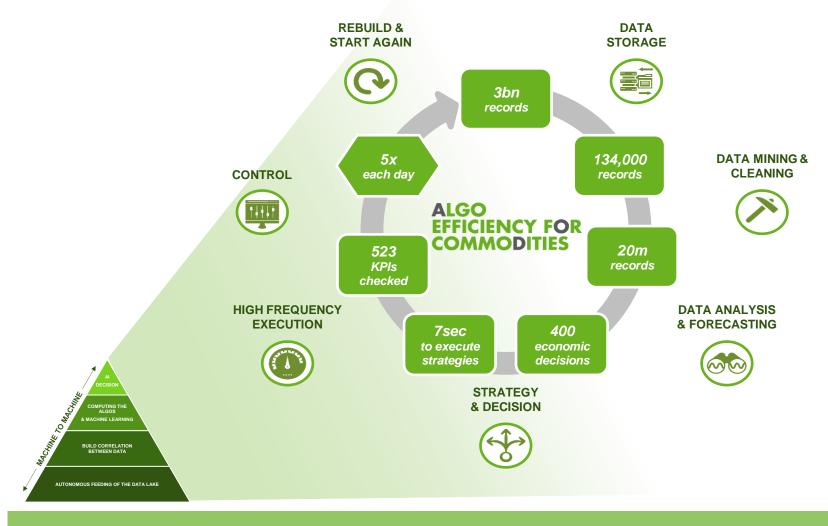

Unique Al Platform to integrate the entire value data chain...

All the building blocks of the platform are interconnected through proprietary and self-improving algorithms

ca. €6m planned investments in 36-48 months to create the GIGA Factory of physical commodities' data

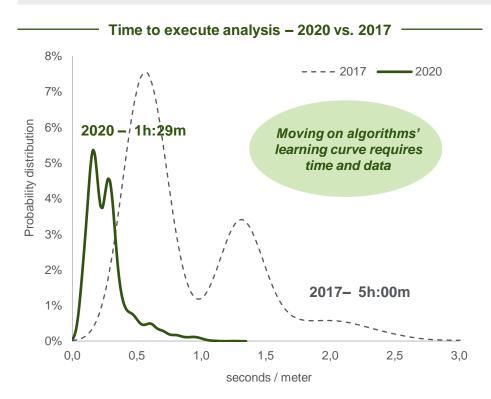

..with high barrier to entry to defend the competitive advantage

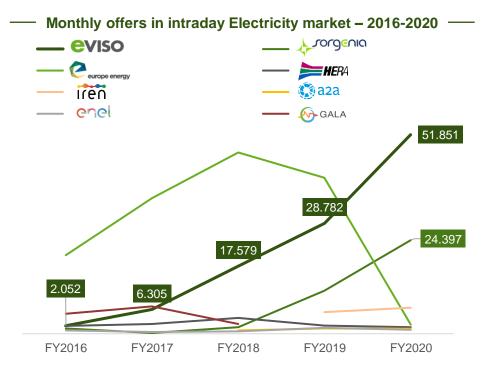

Acquired competitive advantage linked to the technology implementation timing and machine learning

Technology implementation

Strong defensibility related to the 52,566 man-hours and 15,000+_reiterations run to "feed" algorithms, which is a lengthy process relatively non-dependent on the size of investments

837,802 lines of code progressively written, with an elaboration time of less than 1h:30m from the data collection (up to 5h in 2017)

51,851 monthly bids vs. 24,397 of the second best, with a gap widening over competitors through the years thanks to machine learning

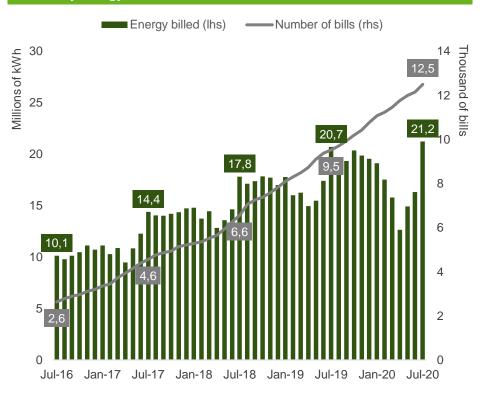

Remarkable results in the Energy market

Impressive growth of a highly loyal customer base

Steady growth in the number of users served

+374.4% direct clients' monthly bills in July 2020 vs. July 2016, with a +47.6% CAGR; +109.4% MWh of Energy billed in the same period, with a +20.3% CAGR

Monthly energy billed and n. of bills to direct clients¹ - FY2017-2020

High customer fidelization

Switch rate steadily well-below market, equal to 5.4% in eVISO in 2019 vs. 16.1% of the market

Switch rate - 2016-2019

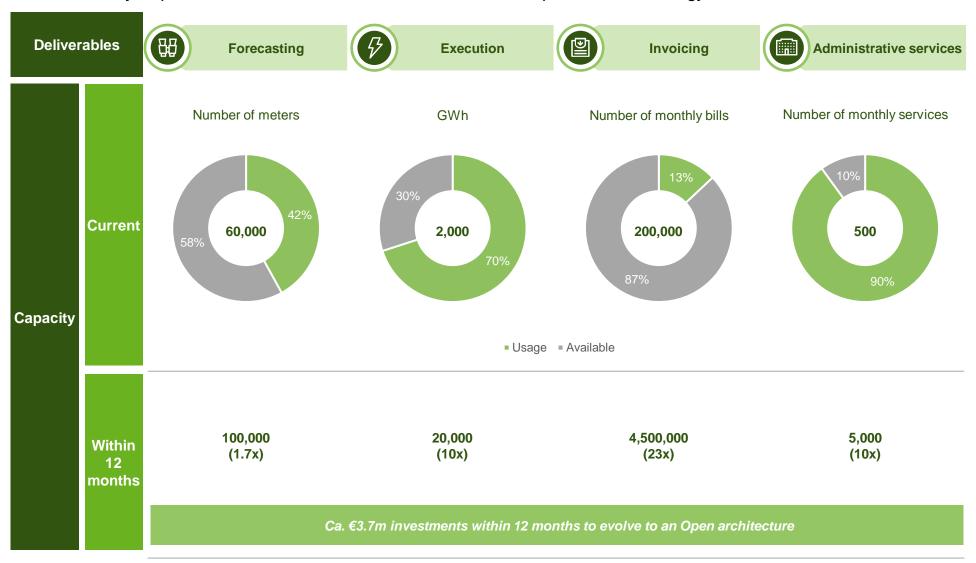

3

eVISO is born scalable...

Platform ready to process a massive volume increase and clear penetration strategy to enter new markets

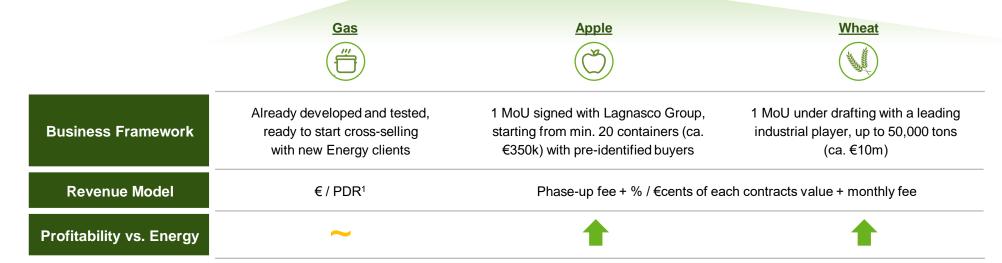

...and is ready to scale faster into new profitable commodities markets

4-step strategy to enter and scale into several commodities markets

Penetration Strategy	"PAIN"	2 APPLICATION	3 SCALABILITY	MAXIMIZE VALUE
Description	Understanding Customer's needs	and how to extract value	Testing on few customers, enlarging services offered and raising barriers to entry	Optimizing the pricing to each single unit
Current Status	Peach Corn Soy (2023) (2023)	Gas Apple Wheat (2022) (2023) (2023)	Energy for Resellers (2022) (Fiscal year of expected entry int	Energy for Direct Clients o the "Maximize Value" phase)

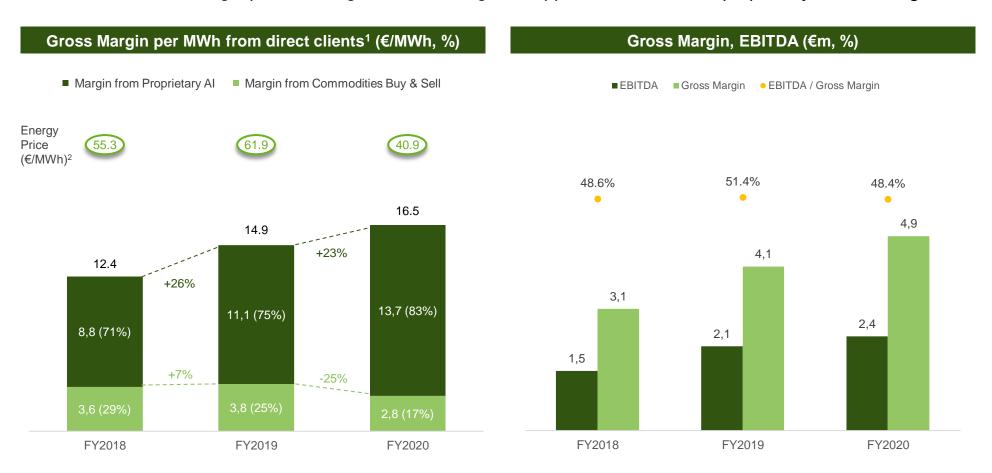

Improving profitability driven by AI technology...

83% of 2020 Gross Margin per €/MWh generated through the application of eVISO's proprietary AI technologies

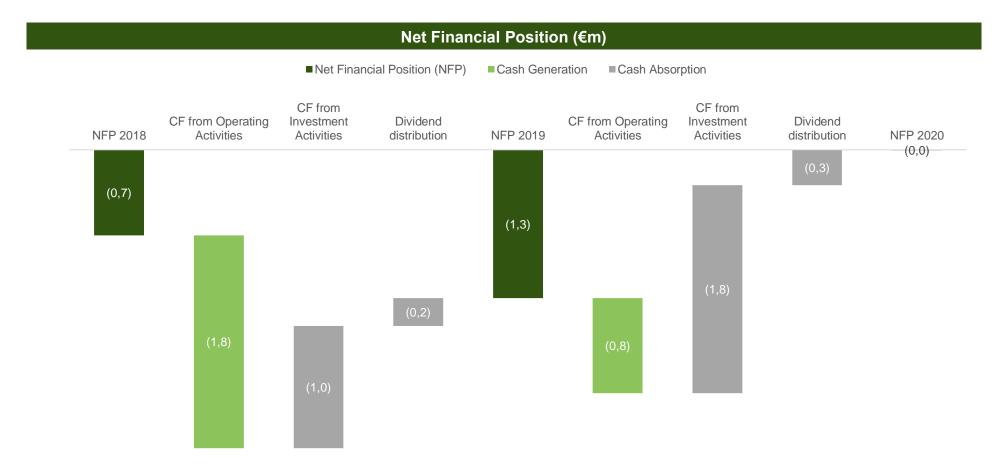

Entering the Agro-food market will provide an immediate increase in profitability, thanks to the elimination from the P&L of pass-through costs related to the dispatching of physical commodities

...with a historically cash positive Net Financial Position

Structurally high cash generation with repeated dividend distribution

Pursuing high ESG standards

eVISO embraces the principles of sustainable development beyond the business

Environment

Energy optimization activity allows eVISO to use electricity in a more efficient way

Clients can ask a 100% renewable energy supply, guaranteed by GSE certification

Social

Supporting talents growth through scholarship for the development of technological, musical and cultural know how

Organizing district events in order to promote artistic, cultural and gastronomic excellences

Financing of
Silvio Pellico monument's
renovation

Organizing fundraising events in order to finance cultural associations and non-profit district organizations

Governance

The Board is composed by 2/5 of independent members in order to guarantee independent decisions making

Creation of committees to handle out decision process regarding sensible themes Inventive scheme linked to results in order to promote a participative business culture

eVISO - società che ha sviluppato una piattaforma di intelligenza artificiale che crea valore nel mercato delle commodities fisiche con consegna reale, caratterizzate da una data di consegna certa ed inderogabile – comunica di aver raggiunto la Digital Supremacy nel mercato dell'energia.

eVISO ha infatti raggiunto il numero massimo possibile di offerte giornaliere sui mercati dell'energia elettrica in Italia. raggiungendo di fatto la perfezione

in questa operazione.

eVISO, thanks to its own technological platform, obtains digital supremacy in the electricity markets.

eVISO has in fact reached the maximum possible number of daily offers on the electricity markets in Italy.

The excellent result was achieved thanks to the release of an update on the proprietary platform which is based on the use of artificial intelligence agents.

This trading activity allows you to act 24/7 at 100% chance.

In the month of February only, agreements signed for the supply of additional 54 GWh, value equal to about the entire supply to the Reseller market of the FY at 30 June 2020.

Annual value of the supply of 54 GWh estimated at 7+ mn €

The technological platform will manage 15,882 additional PoDs starting from March 2021.

EVISO: CONTRATTI PER FORNITURA 54 GWH, VALORE ANNUO OLTRE 7 MILIONI

(II Sole 24 Ore Radiocor Plus) - Milano, 12 feb - eVISO S.p.A. (simbolo: EVS.MI) - societa' che ha sviluppato una piattaforma di intelligenza artificiale che crav alore nel mercato delle commodities fisiche con consegna reale, caratterizzate da una data di consegna certa ed inderogabile - comunica di aver sottoscritto contratti per aumentare di 54 (GWh) l'energia gestita per i Reseller, ovvero gli intermediari tra i cosiddetti utenti del dispacciamento (ovvero i grossisti operanti sui mercati elettrici e iscritti alle reti di distribuzione) e il cliente finale. Il valore annuo della nuova fornitura e' stimato in oltre 7 millioni di euro, calcolato sulla base del prezzo medio dell'energia nell'anno 2020. Nel solo mese di febbraio la societa' di Saluzzo, alla conclusione delle operazioni switch dal precedente fornitore, ha ricevuto in affidamento dal mercato Reseller 54 GWh annuali addizionali di nuova energia, valore praticamente analogo a quanto erogato nell'intero esercizio fiscale precedente (concluso il 30/06/2020) nel quale eVISO ha fornito un totale di 57 GWh al canale Reseller.

L'energia addizionale sara' erogata a piu' di 15.500 nuovi Point of Delivery (POD, ovvero i contatori elettrici), i cui profili di consumo arricchiranno in modo significativo il database proprietario di eVISO. Si ricorda che nell'esercizio fiscale precedente (concluso il 30/06/2020) i POD gestiti erano pari a 10.721 POD.

Grazie a questo aumento di energia che sara' fornita al mercato Reseller a partire dal 1 di marzo 2021, eVISO rafforza in modo significativo il proprio posizionamento sul mercato di fornitura di energia elettrica e di servizi ad alto contenuto tecnologico. Ricordiamo che Eviso, oltre al canale Reseller, e' attiva nella vendita di energia elettrica e qas naturale al cliente finale, sia piccola media impresa sia persona fisica.

A.2 Key financials

Impressive revenues growth

Sustained double-digit revenue growth supported by volume increase and offering strengthening

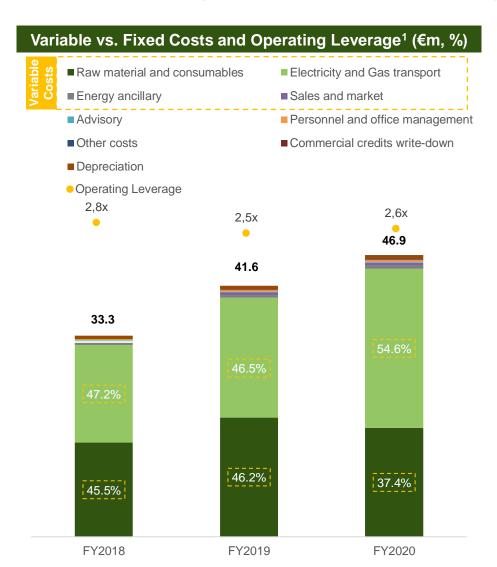

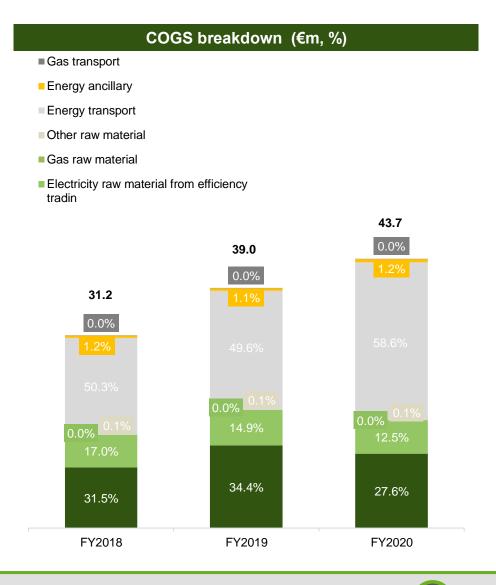

Activation of the Resellers' channel

Lean cost structure

Over 94% of Operating Costs are variable, with a 2.6x degree of Operating Leverage¹ recorded in FY2020

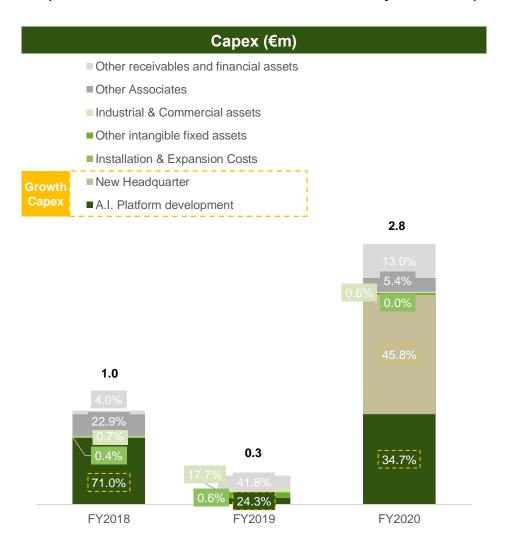

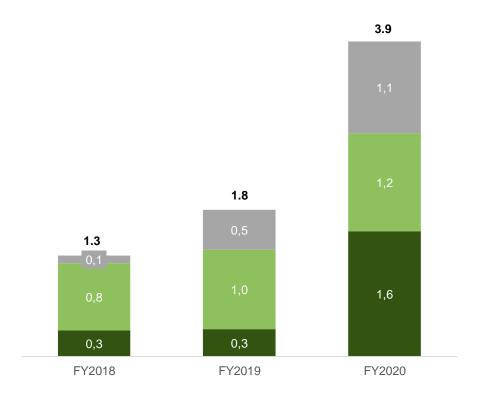

Strong investments to support the Company's rapid growth

Capex and Net Fixed Assets increase mainly refers to platform developments and the new headquarter

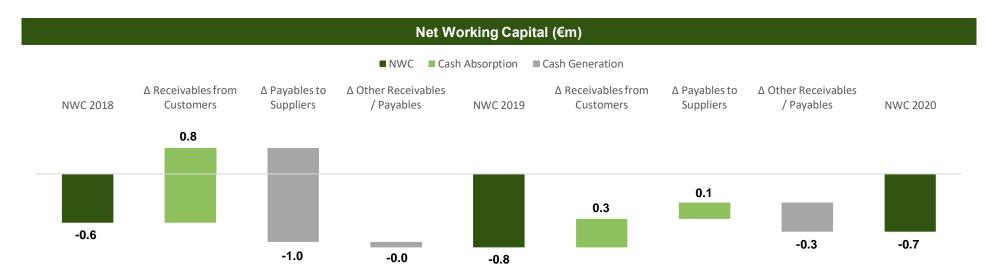

■ Tangible Fixed Assets ■ Intangible Fixed Assets ■ Financial Fixed Assets

Net Working Capital

Negative Cash Conversion Cycle and leading to a consistent cash generation in the Working Capital dynamic

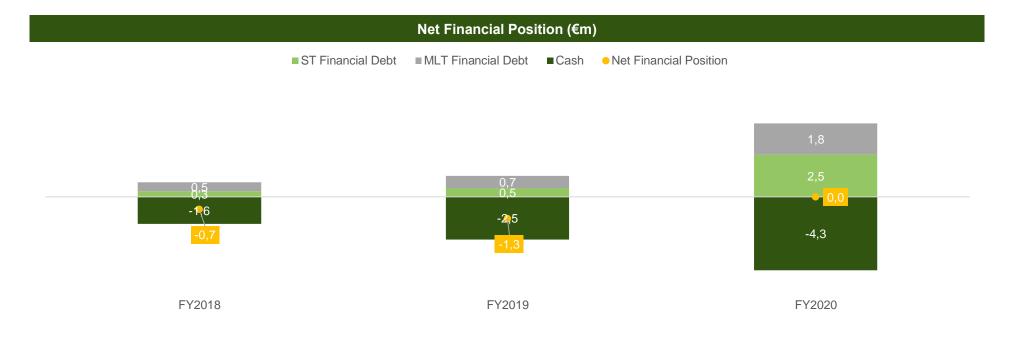

Fiscal Year	FY2018	FY2019	FY2020
Days Payables Outstanding	48.3	47.8	40.8
Days Sales Outstanding	34.5	34.7	33.2

- Receivables from customers are represented exclusively by Italian customers, with a level of overdue not significant. Overall, receivables increased by 8% from 2019 to 2020 due to the combined effect of the increase in the number of customers served by the Issuer and the reduction in consumption which occurred after the Covid-19 burst. DSO improved over the 3-year period, moving from 34.5 days in 2018 to 33.2 in 2020
- The decrease in trade payables of €0.2m recorded between 2019 and 2020 is due to the combined effect of the contraction in national energy consumption and the drastic drop in the cost of energy on the electricity market due to the lockdown of non-essential production activities imposed following the Covid-19 pandemic. DPO improved YoY, moving from 48.3 days in 2018 to 40.8 in 2020
- eVISO has no inventory
- Other changes in NWC mainly refer to VAT and taxes, operating excise duties and fees, operating payables and receivables, accruals and deferrals

Net Financial Position

Historically cash positive Net Financial Position

- Current bank payables and non-current bank payables are entirely made up of the short and medium-long term portions of the loans taken out. The repayment of these loans on a monthly basis is regular. The change between 2018 and 2019 is due to the combined effect of the repayment of the expiring installments and the initiation of two new loan agreements entered into with Unicredit S.p.A. (€0.50m) and with Intesa Finpiemonte S.p.A. (€0.25m)
- In 2020, the Company signed five further loan agreements with Deutsche Bank S.p.A., BPER S.p.A., Intesa SanPaolo S.p.A. and Banco BPM S.p.A., represented below:

Issuer	Туре	Signing date	Outstanding 30/06/2020	Value	Rate	Maturity

By attending this meeting and accepting this presentation, you will be deemed to have agreed that: (i) you will not disclose information contained herein to anyone within your firm (other than subject to these restrictions) or outside your firm (ii) and these restrictions will apply to your entire firm. By attending the meeting where this presentation is made, or by reading the following presentation slides, you further agree to be bound by the following limitations, qualifications and restrictions.

The information contained in this documentation has been prepared by eVISO Srl (the "Company") and its consolidated subsidiaries (together, the "Group") for the sole purpose of the presentation made to you concerning the Company. This presentation and the information contained herein are strictly confidential. Disclosure of the information contained herein to anyone outside of your firm is prohibited. This presentation may not be copied, distributed, reproduced or passed on, directly or indirectly, in whole or in part, or disclosed by any recipient, to any other person (other than as required to those within your organization who agree to be bound by these restrictions) or published in whole or in part, for any purpose or under any circumstances.

This document does not constitute or form part of any offer to sell or issue or invitation to purchase or subscribe for, or any solicitation of any offer to purchase or subscribe for, any securities of the Company, nor shall it or any part of it nor the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision. The information and opinions contained in this document are provided as at the date of the presentation and are subject to change. Neither the Company nor the Group nor any other person is under any obligation to update or keep current the information contained in this presentation.

To the extent available, the industry, market and competitive position data contained in this presentation come from official or third-party sources. Third-party industry publications, studies and surveys generally state that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee of the accuracy or completeness of such data. While the Company reasonably believes that each of these publications, studies and surveys has been prepared by a reputable source, none of the Company or Intesa Sanpaolo S.p.A., - nor UBI Banca S.p.A. - (the "Banks") has independently verified the data contained therein. In addition, certain of the industry, market and competitive position data contained in this presentation come from the Company's own internal research and estimates based on the knowledge and experience of the Company's management in the markets in which the Company operates. While the Company reasonably believes that such research and estimates are reasonable and reliable, they, and their underlying methodology and assumptions, have not been verified by any independent source for accuracy or completeness and are subject to change. Accordingly, undue reliance should not be placed on any of the industry, market or competitive position data contained in this Presentation.

The information contained in this Presentation is preliminary in nature, subject to updating, correction and amendment and does not purport to be comprehensive. None of the Company, the Banks, any of their respective subsidiary undertakings or affiliates, or their respective directors, officers, employees, advisers or agents accepts any responsibility or liability whatsoever for/or makes any representation or warranty, express or implied, as to the truth, fullness, accuracy or completeness of the information in this Presentation (or whether any information has been omitted from the presentation) or any other information relating to the Group, whether written, oral or in a visual or electronic form, and howsoever transmitted or made available or for any loss howsoever arising from any use of this Presentation or its contents or otherwise arising in connection therewith.

Neither this document nor any part or copy of it may be taken or transmitted into the United States or distributed, directly or indirectly, in the United Sates, as that term is defined in Regulation S under the US Securities Act of 1933, as amended (the "US Securities Act"), except to a limited number of qualified institutional buyers ("QIBs"), as defined in Rule 144A under the US Securities Act. Neither this document nor any part or copy of it may be taken or transmitted into Australia, Canada or Japan or to any resident of Japan, or distributed directly or indirectly in Australia, Canada or Japan or to any resident of Japan. Any failure to comply with this restriction may constitute a violation of United States, Australian, Canadian or Japanese securities laws. This document does not constitute an offer of securities to the public in the United Kingdom or in any other jurisdiction. Persons into whose possession this document comes should observe all relevant restrictions.

This Presentation and the information contained herein are not a solicitation of an offer to buy securities or an offer for the sale of securities in the US (within the meaning of Regulation S under the US Securities Act). The ordinary shares of the Company have not been, and will not be, registered under the US Securities Act and may not be offered or sold in the United States except pursuant to an exemption from, or a transaction not subject to, the registration requirements of the US Securities Act or unless registered under the US Securities Act and in compliance with the relevant state securities laws. There will be no public offering of any securities in the United States.

This presentation is an advertisement and is not a prospectus for the purposes of applicable laws and regulations and it has not been approved by any authority. In the event of any eventual offering by the Company, an investment decision should be made solely on the basis of information contained in any offering documents to be prepared by the Company in the future in connection such offer. If made available, any such offering document would include a description of risk factors in relation to an investment in the Company and would supersede this Presentation in its entirety.

Disclaimer

The Banks are acting for the Company in connection hereof and no one else and will not be responsible to anyone other than the Company for providing the protections afforded to their respective clients or for providing advice in relation to the Global Offer or any transaction or arrangement referred to in this presentation.

Forward-Looking Statements: This document may include projections and other "forward-looking" statements within the meaning of applicable securities laws. In particular, all statements that address expectations or projections about the future, including statements about operating performance, market position, industry trends, general economic conditions, expected expenditures, cost-savings, synergies and financial results, are forward-looking statements. Consequently, any statements contained herein that are not statements of historical fact are forward-looking statements. Forward-looking statements are based on assumptions and current expectations and involve a number of known and unknown risks, uncertainties and other factors that could cause actual results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Accordingly, actual events or results or actual performance of the Company or the Group may differ significantly, positively or negatively, from those reflected or contemplated in such forward-looking statements made herein. Factors that might cause such differences include, but are not limited to, the risks that business strategy and plans may not receive the level of market acceptance anticipated; disruptions in general economic and business conditions, particularly in geographic areas where business may be concentrated; higher interest rates, higher loan costs or less desirable loan terms, all of which could increase our costs of funding; continued high levels of, or increases in, unemployment and a general slowdown in commercial activity; leverage and ability to refinance existing indebtedness or incur additional indebtedness; an increase in debt service obligations; the ability to generate a sufficient amount of cash from operations to satisfy working capital requirements and to service existing and future indebtedness; the ability to achieve improvements in operating efficiency; foreign currency fluctuations; the ability to retain senior manageme

The Group and all other persons expressly disclaim any duty, undertaking or obligation to update publicly or release any revisions to any of the information, opinions or forward-looking statements contained in this document to reflect any events or circumstances occurring after the date of the presentation of this document. No representation or warranty is made as to the achievement or reasonableness of and no reliance should be placed on such forward-looking statements.

Projections: Any projection or forecast in this document is based on estimates and assumptions, described in this document, about future events and, as a consequence, is subject to significant economic and competitive uncertainty and other contingencies, none of which can be predicted with any certainty and some of which are beyond the Group's control. Each recipient of this document should be aware that these projections do not constitute a forecast or prediction of actual results and there can be no assurance that the projected results will be realized or achieved, and actual results may be higher or lower than those indicated. None of the Company, the Group, the Banks, nor any of their respective security-holders, directors, officers, employees, advisors or affiliates, or any representatives or affiliates, assumes responsibility for the accuracy of the projections presented herein.

Also presented herein are alternative performance indicators that are not recognized by IFRS. Different companies and investors may calculate these non-IFRS measures differently, so making comparisons among companies on this basis should be done very carefully. These non-IFRS measures have limitations as analytical tools, are not measures of performance or financial condition under IFRS and should not be considered in isolation or construed as substitutes for operating profit or net profit as an indicator of our operations in accordance with IFRS.
